

MUHAMMAD SHAHZAIN

Kabirwala • +92-3080452803 • futurezaintech@gmail.com

SUMMARY

Computer Engineer specializing in front-end development, Shopify customization, and MERN stack applications. Experienced in developing dynamic, responsive websites and web apps using React, Node.js, MongoDB, and modern JavaScript frameworks. Strong understanding of system design, debugging, and scalable architecture with a focus on clean code and performance optimization.

WORK EXPERIENCE

Shopify Developer

Enigma Systems (Startup) | 2025 - Present

- Customized and developed Shopify themes according to client requirements.
- Built dynamic product sections, filtering systems, and custom card components using Liquid, JavaScript, and CSS.
- Integrated third-party APIs and enhanced store functionality with custom features.
- Optimized Shopify stores for performance, responsiveness, and better conversion rates.
- Troubleshoot theme issues and implemented scalable solutions for growing e-commerce businesses.

Final Year Project - Ai Robotic Assistant

2025 - 2026

- Designed and developed an AI-powered robotic assistant for university use.
- Implemented speech recognition and text-to-speech interaction in Urdu and English.
- Integrated intelligent chatbot functionality with context-aware responses.
- Developed backend logic for memory handling and smart query processing.
- Combined hardware interface with AI software modules for real-world interaction.

MERN Stack & AI Developer

Academic & Personal Projects | 2025

- Built full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Designed RESTful APIs with authentication and database integration.
- Developed AI-powered systems including a robotic assistant with speech recognition and contextual response handling.
- Implemented intelligent data storage, vector search, and session-based memory systems.

Frontend Web Developer - Intern

Developer Hub | 2024

- Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and React.js.
- Converted UI/UX designs into functional web pages with pixel-perfect implementation.
- Improved website performance and optimized frontend components for better loading speed.

EDUCATION

Bachelor of Science in Computer Engineering

2022 - 2026

Bahauddin Zakariya University (BZU) — Multan, Pakistan

- Relevant Coursework: Data Structures & Algorithms, Database Systems, Computer Networks, Operating Systems, Software Engineering, Artificial Intelligence
 - Final Year Project: AI-Based Robotic Assistant
-

ADDITIONAL INFORMATION

Technical Skills:

- **Programming Languages:** JavaScript, Python, C++, C#, HTML5, CSS3
- **Frontend Development:** React.js, Responsive Web Design, DOM Manipulation, REST API Integration
- **Backend Development:** Node.js, Express.js
- **Database Technologies:** MongoDB
- **E-Commerce Development:** Shopify (Liquid), Theme Customization, Custom Sections Development
- **AI & Tools:** LangChain, FAISS (Vector Database), Speech Recognition, Text-to-Speech Integration
- **Version Control & Tools:** Git, GitHub, VS Code, Postman

Languages:

- English
- Urdu
